president's address

I write at the New Year, when the news media are taken up with reflections on the past decade, and many comments note significant changes in Canadian universities. Such observations have a particular application to this university which, in 1960, was operating under denominational auspices, with an enrollment of 1,000. Discussions about future structure were just beginning, and the great increase in enrollment, — as it turned out, five-fold in ten years — was only dimly perceived. Few had any suspicion of the tremendous changes of the 1960's, with new faculties, departments, and programs at the honours and postgraduate level. And few could have predicted the major shifts of opinion across a wide spectrum of fundamental issues, prompted by developments within Canada and abroad.

At this moment in history, there is much puzzling evidence that there is a flight from reality, a passing enchantment with the irrational, however fanciful, on the part of many, especially younger people. A pessimist might find the sudden surge of interest in astrology, the ancient Chaldaean superstition, to be a symptom of our age.

Against this background, the traditional role of the university, in emphasizing the importance of evidence for the formation of responsible opinion, becomes even more important. There are times when I would settle for this as the function of the university, even to the neglect of any other! At the University of Windsor we have not ignored this aim, especially in our efforts during the past year to involve an increasing number of students and staff in the determination of university procedures and policies. The process is not yet complete, but I would single it out as the achievement of the past year.

the Baksi, Yared, administration -

Incorporation, a word often considered alien when used in connection with a Student Council, is a term which has had great use this year at the University of Windsor. In late September of 1969, the students of this university approved by referendum the establishment of two corporations: the Students' Administrative Council, University of Windsor and Student Media, University of Windsor in accordance with proposed Letters Patent and By-Laws.

Various interpretations have from time to time been applied to these particular incorporations and for this reason I shall endeavour to present here a definitive and concise statement concerning each of the corporations.

The members of the Students' Administrative Council corporation will be those elected for a one-year term by the students of the University of Windsor. Elections held in March of each year, will see a continuation of the system of representation by faculty or school as has been in effect since 1967. The board of directors of the corporation will consist of the President, Vice-President — Secretary, Finance Commissioner and up to six other members of the Students' Administrative Council. The board of directors shall have no power over the decisions of council and shall function only as required by law. Two major alterations in the present system will come into effect with incorporation. The President of Students' Council will now act as a voting chairman of the council replacing the non-voting appointed Speaker. By the laws of the Province of Ontario the President, Vice-President-Secretary and Finance Commissioner of the Corporation must be twenty-one

years of age or over and must be British subjects.

The Student Media Corporation will consist of nine members. They are the Editor of the Lance, the Editor of the yearbook, the Editor of Generation, the manager of the radio station, the director of the Central Ad Bureau, a representative of the Alumni Association, the President, Vice-President-Secretary, and Finance Commissioner of Students' Administrative Council. New editors and managers will be selected in March of each year by the outgoing members of the corporation. The Board of Directors of this corporation will consist of the President, Vice-President-Secretary, Finance Commissioner of Students' Administrative Council, and up to three additional members of the corporation. Here again the board shall have no power over the corporation and shall function only as required by law. As it has been in the past, the editors and managers shall be individually responsible for the content of their publication or presentation.

In summary then, we hope that incorporation of your student government and media in this fashion will primarily make them more responsive to the individual student. As well as enabling both bodies to function as separate legal entities, we look forward to a more responsible and efficient management of student affairs by incorporating. I am sure that in the coming year, we shall all experience benefits from incorporation and I sincerely hope that any suggestions regarding the corporations would be communicated to me at your convenience.

a trying but successful term

The major issues of this year have revolved around student participation in university government. The voice of the student body has been heard at practically every level. In the Senate, we spoke out against a proposed curling rink and for an improvement in academic facilities. Students now help in the formulation of university development plans. We have had representatives on committees of the Board of Governors, John Gunning's efforts on the Parking Committee being the most notable. Full student membership on the Board is presently under negotiation and the outcome appears favourable. Most of our problems have arisen from representation on the departmental level where students are treading upon faculty "holy ground". Our philosophy of participation includes a definite voice in the hiring, firing, and promoting of faculty, many of whom are still unwilling to accept student criticism of their abilities (although only the Lord knows who else is in the classroom to make such an evaluation). Suffice it to say that in many areas, the student body has been recognized as having a competent and responsible part to play in the development of our academic community.

My efforts this year have been directed toward opening up these areas of participation and encouraging capable students to take part in the decision-making process. With the other executive members, I have attempted to build a programme which would improve the academic environment as much as possible, and make your year here as pleasant and enjoyable as possible. I'd like to thank you all for the opportunity of serving and working for your interests, and I urge you to help my successor by making your views or your suggestions known to him.

I hope that the past year has proven fruitful, and I pray that the University of Windsor serves as your stepping stone to a meaningful and satisfying life.

student council

S.A.C. Commissioners are elected by you to serve student interests. INTERNAL AFFAIRS handles club budgets, student-administration relations, and course evaluation surveys. EXTERNAL AFFAIRS is responsible for on and off campus conventions, seminars, guest speakers, and off-campus housing. The FINANCE Commissioner distributes club funds and manages all other S.A.C. spending. SERVICES is designed to arrange social activities and entertainment on campus.

For serving in these posts the Commissioners receive an honorarium of \$540.00. If you feel your Student Council is not living up to its responsibilities it is up to you to elect trustworthy officers and to hold them to their duty. S.A.C. '69 while not an outstanding administration can be commended for its productive and progressive year.

fraternities at windsor

what is a fraternity?

Basically a group of men organized to achieve goals; goals determined by individuals in that particular fraternity.

why does a student join a fraternity?

He may want to participate in a group that is personalized, has a meaningful social function and is large enough to promote major academic changes and small enough to experience the intimate bond of brotherhood.

what does 1970 hold for the fraternity system?

They will grow in number and in size but quality and effectiveness of the fraternity system will depend largely on not only what individual members decide on as goals but also what school, the university community and non-fraternity members demand of them to become "relevant units" in that milieu of society.

the inter fraternity council

The Inter-Fraternity Council's main function is to project the main thoughts and goals of all fraternities on campus. They co-ordinate various events and activities that the fraternities as well as the student body as a whole.

The council has sponsored such events as "Greek Week" in which

various activities are set up to create competition amongst the fraternities. Last September I.F.C. organized the last day during Orientation for the general student body.

On the whole the Inter-Fraternity Council exists to serve the fraternities as well as the students at the University of Windsor.

tau kappa epsilon

Tau Kappa Epsilon Fraternity is presently undergoing a most successful year. It is still the largest fraternity on campus. Winners of the annual Greek Chariot Race and the Inter-Fraternity baseball championship, we hope to make a clean sweep of the years remaining events. A successful Homecoming was headed by our float which has as its theme "MOW 'EM DOWN LANCERS". Two outstanding members, Al Dresser and Dave Merrill then helped lead the football Lancers to a victorious season. Pie eating contest, or was it pie throwing contest?, champ was also a TEKE namely, Punky Bracken.

Our most important is a granting of a charter — that is full membership status in the International Fraternity. This should take place near the end of January. Presently located in an off-campus apartment, plans are being made to build a complete forty man housing unit to fulfill future needs. In conclusion, TEKE IS TUFF.

October 13th, 1968 not only marked the seventy-eighth founding anniversary of the national Fraternity of Delta Chi, but also the establishment of its Windsor Colony. Its newly initiated members realized that a primary goal should be to establish a "hub" around which every activity could be co-ordinated. A house within a block of the university was chosen to be the appropriate solution. Through determined effort, \$43,000 was raised to purchase this house by the end of the summer of 1969. Delta Chi then became the second fraternity to have a house on campus.

During the Colony's second year of existence each active member resolved to help improve the Fraternity. We placed second in the inter-fraternity baseball league and took number two spot in the "Greek Chariot Race".

We know where we now stand, but Delta Chi can not settle for second best. We shall be number one on this campus by dedicated participation in all campus activities. Our guide line will be this short passage from the Preamble to the Delta Chi Constitution — "— appreciating that close association may promote friendship, develop character, advance justice and assist in the acquisition of a sound education —".

The Crescent Club, University of Windsor Colony, was established by Lambda Chi Alpha Fraternity, Nov. 7, 1969. This association of women is dedicated to the progress and well-being of Lambda Chi Alpha. In the achievement of these goals, the Crescents strive to become better involved and informed members of the female community of Windsor.

The Crescent Club does not restrict its membership to Students of the University of Windsor. It includes representatives of the teaching and nursing professions, and business girls.

The Crescents hold in high esteem their three ideals: perfection, tolerance, and brotherhood. In striving for perfection, in every function they perform, the Crescents seek to become more tolerant of discord and hindrance, and learn to appreciate the unifying force of brotherhood. Enabling the achievement of these ideals is the all-important concept of loyalty; loyalty to the Crescents, loyalty to Lambda Chi Alpha Fraternity, and consequently loyalty to ourselves.

"We are committed to help in the development of the whole man. By encouraging involvement in extracurricular activities, community projects, charity campaigns, athletic contests, and social programs, the fraternity by consensus promotes the evolution of the whole man. In this voluntary association known as a fraternity, personal values and aspirations are emphasized as are pride and loyalty.

Lambda Chi Alpha is one of the largest International Fraternities in the world. It has over 100,000 undergraduate members and over 180 chapters and colonies in Canada and the United States.

The University of Windsor Colony was established on September 7, 1968, by the Western Michigan University Chapter. Since that time, it has grown into one of the most constructive and active as

well as largest bodies on campus.

There are over 40 Lambda Chis on the Windsor campus. These are men from every faculty and every year. They are actively involved in such things as the Students' Administrative Council, the Commerce and Ski Clubs, the Inter-Fraternity Council, and the Canadian University Service Overseas as well as intramural sports. The University Blood Clinic and Homecoming Parade were both successes in which Lambda Chis played major roles.

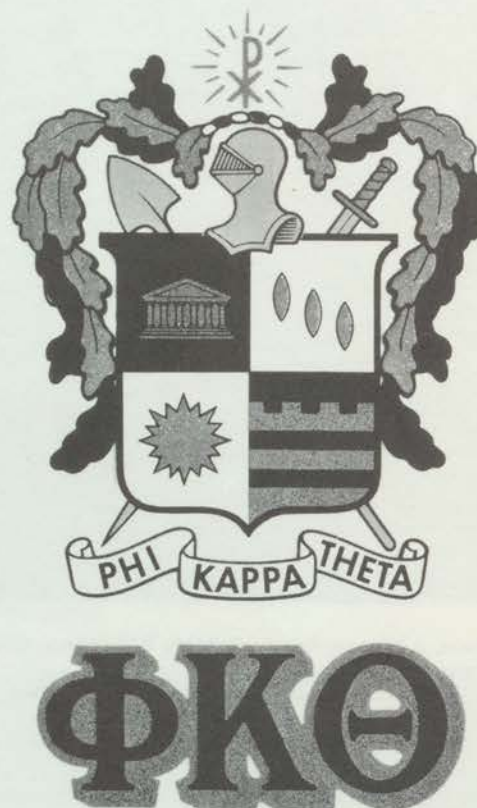

The men of Lambda Chi Alpha are assisted in many of their activities by the Crescent Club. These are women who, are vitally concerned for the well-being of the Fraternity and demonstrate this by their assistance to the Colony."

phi kappa theta

Phi Kappa Theta Fraternity is now blossoming into the fraternity intended by its founders. The purchase of our beautiful Tudor-Style house is one of the greatest highlights in our history to date. We are very thankful for our fine group of "pledges" in whom we are placing much hope for the future. We would like to take this opportunity to extend our thanks to the many people who were involved in the purchase of our house. Our faculty advisors, Rev. T.C. Akeley and Dr. C. MacInnis have devoted a great deal of time and energy. We would like to extend a special thanks to these two men.

Once again, we feel our basketball team is a top contender, and are zealously plotting the capture of the I.F.C. basketball trophy. Group activities are an integral part of our programme, and into which we attempt to include such areas as sports, social and community work.

It is the boast of Phi Kappa Theta that we have something for everyone and we hope to make this more emphatic in the future.

pi kappa alpha

After winning almost every fraternity award last year, Pikes emerged this past September as the defending champs of the Greek system at Windsor. However, the colony de-emphasized its outside activities temporarily in order to prepare itself for installation and chartering as the first Canadian chapter of the Pi Kappa Alpha National Fraternity, one of the oldest and most prestigious fraternities in the world. Having met the most stringent colonization requirements in the fraternity system, the brothers' work came to fruition with the long-awaited Chartering Weekend of February 27th — March 1st, a time when Pikes everywhere celebrated the 103rd anniversary of the founding of the Fraternity. The high point of the weekend, after inspiring individual initiation and chapter installation ceremonies, was the formal Installation Banquet and Dream Girl Dinner Dance held in the Crown Room of the Sheraton-Viscount (headquarters for the weekend's festivities and out-of-town guests and dignitaries).

Although zoning regulations kept the brothers from finally purchasing their original house at 221 Askin, they were able to buy another Tudor-styled fraternity house on California near the campus, which they took over after Christmas. Pikes also nominated and helped to elect their Dream Girl Sweetheart as Homecoming Queen for the second year in a row; and, in keeping with their motto of being "first and foremost" among fraternities at Windsor, the brothers introduced the first fraternity calendar in Canada — a traditional custom of Pike chapters on many campuses and now to be an annual custom in Canada. The new 1970-'71 calendar will be out in time for Frosh Week this coming September.

inter-residence council

Although the Inter-Residence Council was formed two years ago this year has proven to be the most productive.

The aim of the council is to promote the unification of residence students while maintaining a good competitive spirit.

The executive of the various residence councils make up the Inter-Residence Council, which works within a loose structure to allow every residence an equal opportunity in expression of its ideas.

The council's functions are diversified. It may plan social events or unite the residences on issues involving non-resident students as well as the students who reside within the walls of Huron, Cody, Macdonald, Electa and Laurier.

our potential in radio

University of Windsor Radio was initiated on the premise that the closed circuit system would eventually evolve into an F.M. licence to broadcast to the whole Windsor area. Financial debts certainly prolong this. However the second step, that of programming, has been the area of improvement this year. Next year better training for disc jockey personnel and more co-operation between communication services and ourselves will further help improve the calibre of the station.

This past year has witnessed the broadcast of away football games and home hockey games.

The future depends much on the financial ability of Student Council to get itself out of debt. However we who have stuck it out and put our faith in the future feel this is imminent.

Radio has the greatest potential of any media on this campus. University of Windsor radio located in MacDonald Hall is but a modest beginning.

lancer football

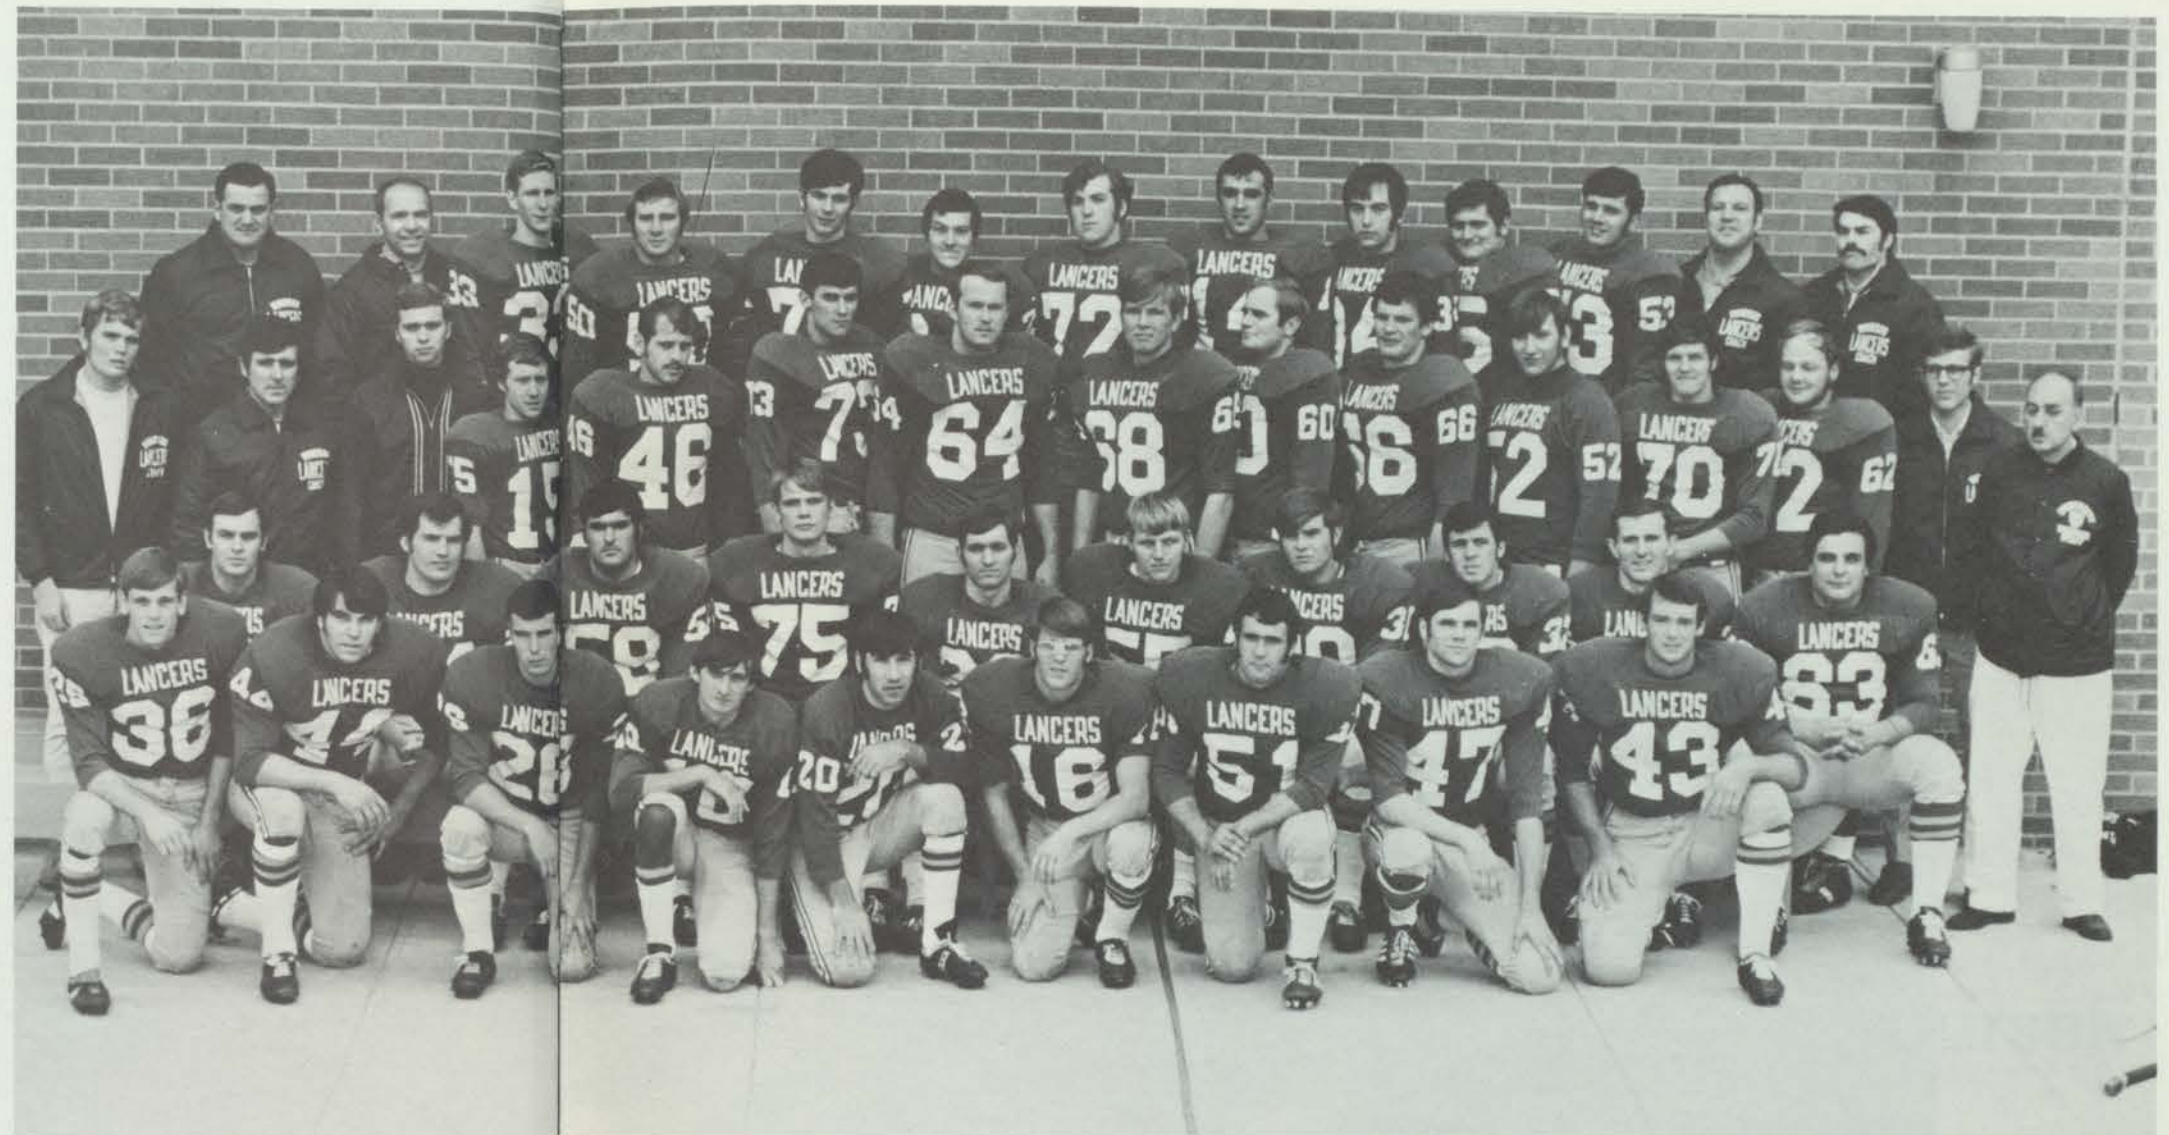

The Lancers of 1969, while virtually the same team that wore the record of a 0-6 around their necks in 1968, showed that the University of Windsor Lancers are not just a champion calibre basketball team but a football powerhouse as well.

This season saw the advent of the "Dirty Dozen", the stalwart defensive crew which featured C.C.I.F.C. all-stars John Dorion, Mike Scime, Ross McDonald and George Short, the defensive back of the Lancers who was selected to the All-Canada Inter-Collegiate Football Team.

Not to be outdone, the offence, led by quarterback Andy Parichi, lustily responded to the crowd's cry of 'Go Big Blue'. With all-stars Tony D'Aloisio and Gord Ferguson moving the pigskin behind the powerhouse blocking of the line, featuring all-star tackle Phil Payne, the offence put enough points on the scoreboard to give Windsor a 5-1 regular season record.

Despite losing two starters a week to injuries beginning with the game against the Guelph Gryphons, the Lancers remained victorious until they succumbed to the powerful University of Manitoba Bisons in the national semi-finals on a wind-swept frozen turf on the barren prairie plains of Winnipeg.

The record produced by the efforts and genius of the coaching staff, made a reality by the desire and sacrifice of the team members, players, managers, trainers, and numerous others — is worthy of acclaim by undergrads, grads, alumni, staff and administration, as well as the citizens of Windsor.

The Judo Club is run for and by the students with the help of Mr. A.W. Linnel, first degree black belt.

In late September the beginners' programme started and by the end of the term, nine women and six men had been graded to their first belt.

This year the club is a member of the Windsor Regional Judo League and participates in frequent competition with other clubs in the city.

The Lancer Wrestling Team is out to improve upon their 6th place finish in the O.Q.A.A. finals in 1968-1969. With top wrestlers of last season, John Drohan 168 lb. class, Harry Mancini 150 lb. class, Dave Lee 158 lb. class and John Dorion 190 lb. class heading the team, indications are that their goal will be achieved.

Newcomers, Bob Pesowsky 124 lb. class, Jerry Marier 142 lb. class and Mike Bondy 177 lb. class also add strength to the team.

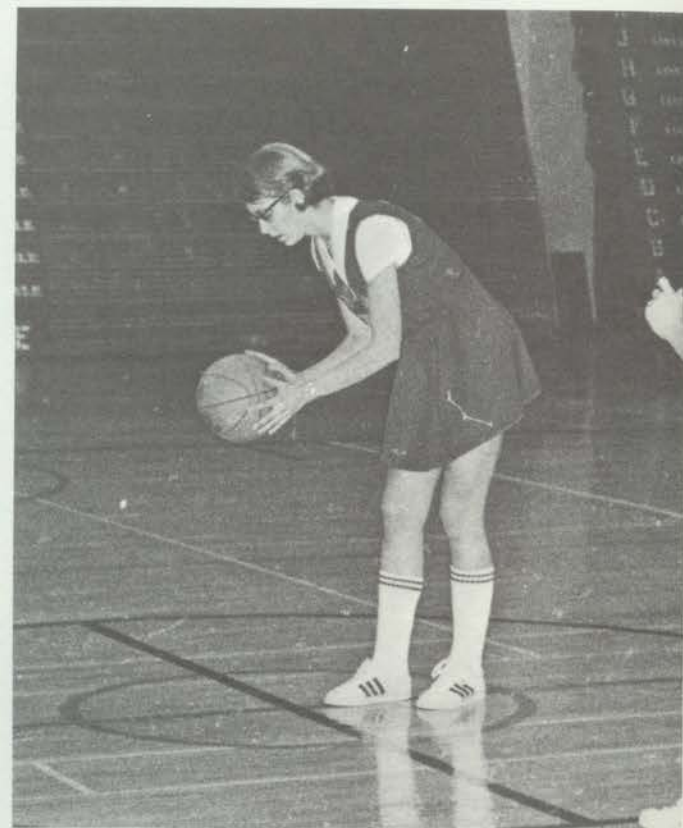

This season has brought about rule changes. The Ontario Quebec Athletic Association has adopted the olympic rules for wrestling. Previously used were the N.C.A.A. rules from the U.S.

Mike Sharratt now in his second term as Coach has worked diligently to build a competent team.

The team has scheduled 11 meets before the Championship and to date have a record of 3 wins and 3 losses.

The Lancer wrestlers would like at this time to express appreciation for student support at their home meets.

1969 brought Paul Thomas to the University of Windsor. His job — coach the defending Canadian College Championship basketball team. As a former coach of the Canadian Olympic team in 1952 and a winning record with San Fernando State, California he was a good replacement for Coach Chittaro.

The Lancer's record now stands at 2-3 but the season is not yet half over. It isn't the easiest thing in the world to switch coaches but a good team will make the adjustment. The Lancers are a good team.

ode to cheerleaders

BOUNCY, BOUNCY, rah rah rah,
 THAT was Windsor we just saw,
 Jumping high and bending low,
 THEY are always on the go . . .
 See the happy cheerleaders;
 See them run;
 See them jump;
 OOPS! ! !
 See them fall;
 See the unhappy cheerleaders . . .
 Go team go
 Fight team fight
 Win team win
 Yea team!
 They cheer loudly
 BUT they cheer alone,
 The crowd is stoned;
 They believe in peace and tranquility
 And they will not yell . . .
 Spirit, Spirit
 Where did it go? ? ? ? ?
 Out of the bottle
 And down the throat . . .
 The game is over
 The crowd files out,
 No longer must they
 Scream and shout,
 And so till next week
 In St. Denis Hall
 They'll practice hard
 For BASKETBALL . . .

The first major project of the Liberal Club was hosting over one hundred delegates from across the province for the Ontario Student Liberal Convention here October 31 to November 2. The boycott of S.W. & A. buses, another club project, was enthusiastically received by both those of the University and of Windsor at large, January 15 saw an informal four-party discussion on "The Role of Political Clubs in Campus Life," hosted by the Liberals. February 7 over three hundred students travelled to Toronto to see "Hair" and support our Lancer Basketball team. In the last part of the year the University of Windsor was represented by several delegates to both the Canadian Student Liberal and the Liberal Party of Ontario Conventions.

Two federal cabinet ministers, Hon. Bob Andras, Minister without Portfolio and the Hon. John Turner, Justice Minister addressed the student body in the spring.

Windsor's Progressive Conservative Club is quickly turning into a working link between students and the government "system" we seek to reform.

The campus P.C.'s work in local riding associations, in nation-wide students groups, in countrywide seminars on regional government and pollution, and of course, on campus, with speakers, meetings, and social events, to keep the students and politicians aware of each other.

The big events for the club this year were early visits by National leader Bob Stanfield and Ontario Prime Minister John Robarts. The group will soon be working in Windsor's elections ridings, preparing for the next Provincial election.

The "University of Windsor Singers" under their director, Prof. Robert K. Mauch are quickly making a name for themselves, both on campus, and in the Windsor community. The group is open to all interested singers, and Prof. Mauch says there definitely is some truth in the rumour that a colossal performance of Bach's "Mass in B-" will take place at some later date. "Let's have some music, shall we? "

french club

The function of the University of Windsor French Club is to give interested students an opportunity to become better acquainted with French Canadian culture and to provide social events based on that culture. With this end in view the club has planned a trip to Quebec city. Several films in French have been scheduled for the year and French program is heard over the student radio each Monday evening.

The International Student Organization operates from International Centre at 506 Patricia. It's main function is to promote the intellectual, cultural and social advancement of the overseas students here on campus. Canadian and American students are welcomed in our membership and have the rewarding opportunity to learn about the customs and culture of students from foreign countries.

Our programme includes such events as informal discussions, a regularly scheduled "Coffee House", national dinners, film shows, trips to places of interest, guest speakers, language tutoring and other development projects. It is the organization's intention to be of service to the university and the community in any way possible. The highlight of each year's programme is International Night which is held towards the end of January. On this occasion each country is "Brought to Life" on stage by its representatives in the organization.

Our thanks go to everyone who co-operated in our activities.

the commerce club

The Commerce Club is one of the most active clubs on campus. It has a well-rounded schedule of events including both the social and the academic. With a membership of close to 500 there is every chance for all members to participate.

This year the purposes of the club have been expanded with the result that new events such as a seminar and a periodical are being introduced. All in all it looks like one of the most successful years yet for the Commerce Club.

One of the highlights of this year's activities was a three day trip to Ottawa and Montreal which included a tour of the National Research Council. A social event was held in conjunction with the Chemistry Club of St. Clair College.

Plans are presently being formulated for a National Conference of Chemical Students to be held at the University of Windsor.

It is hoped that the new executive will find the same overwhelming enthusiasm which made this year's many functions possible.

The major goal of the Theatre Club is to give students a chance to participate in drama by providing theatre, on campus, outside of the major productions by the University Players.

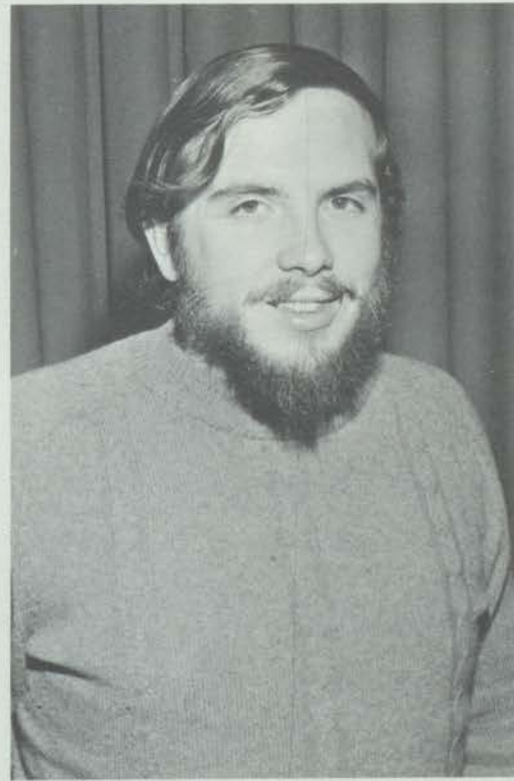

Under the direction of Professor George Neilson, and with the co-operation of the School of Dramatic Art and Communications

trident club

The Ukrainian Trident Club at the University of Windsor offers an opportunity for students of Ukrainian descent and others to meet, socialize, discuss and contribute to the future of the Ukrainian culture in Canada.

Since 1891, when the first two fore-runners of Ukrainian immigration, Wasyl Eleniak and Ivan Pylypiw, came to Canada, we are more than 500,000 strong, 80 o/o being Canadian born, volunteered 50,000 young men and women for both World Wars, represented by 79 parliamentarians and one Lieutenant-Governor, and educated 7,000 teachers, 200 professors and more than 12,000 students at Canadian universities.

Our club strives to strengthen the participation of students in the Canadian-Ukrainian social and cultural life based on Christian and democratic principles, for justice, freedom and independence. "Study and learn what is foreign to you, but do not renounce what is your own".

Here's just another typical moment of leisure enjoyed by the Film Society while a neglected audience, screams for the film to begin. No doubt this film will be out of focus with inaudible sound and as always the coffee will be rank. Just a few of the many reasons why students hopelessly returned week after week for more and more abuse. Complete lack of organization as seen above threatens to continue through the summer and into next year if something isn't done about the films. They're fantastic.

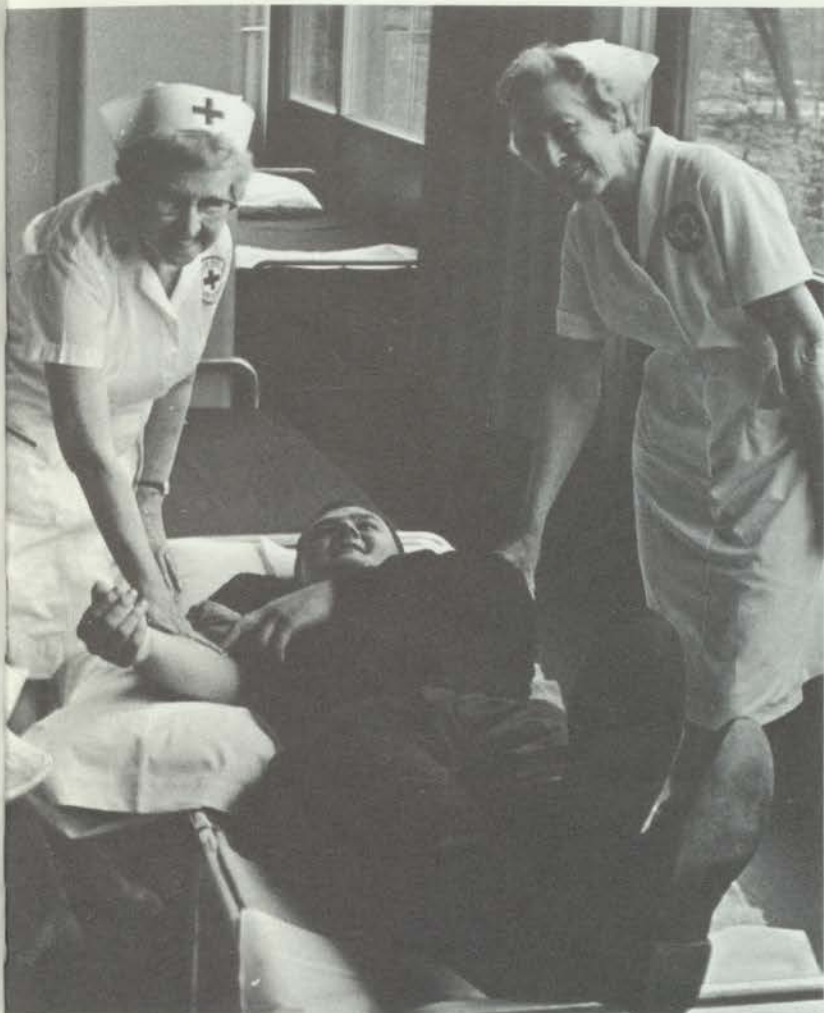

the nursing society

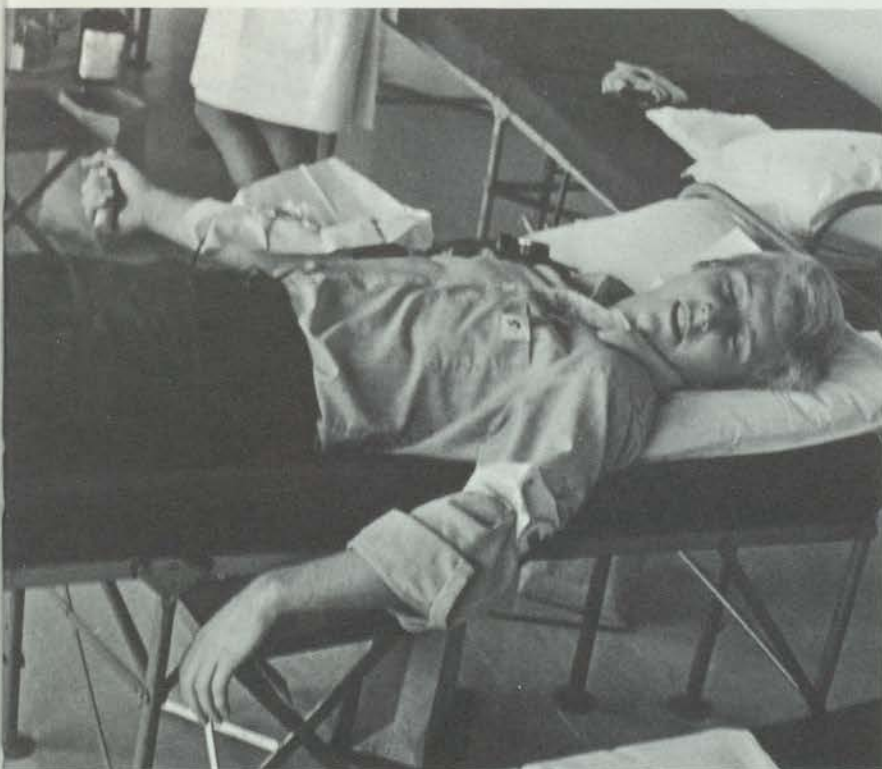

Although the newly reorganized 'Nursing Society' got off to a late start, the 1969-1970 crew managed to make a lot of noise on the so-called apathetic homefront. Combined efforts with the Engineers at Homecoming brought us success with the winning float in our division. An all time record was set at our day-and-a-half Blood Clinic for which we designed the 'Red Corpuscle Plague'. Early November we published our first newsletter to be followed with monthly editions to keep all nursing students informed of nursy-news. Educational interests were encouraged by a series of guest lectures brought in with the New Year. U. of W. was represented at the Inter-University Nursing Conference in Montreal in February by eighteen student delegates. Finally, the Spring exams and the school year's end was heralded by a final fling dinner-dance. And all-in-all, we came out on top with a great sense of humour. Get the Point!

After overcoming organizational difficulties early in the year, the council has been considering problems of departmental expansion and is currently discussing the feasibility of forming a Science Society similar in nature to the Graduate Society and the Engineering Society.

The social functions of the Council included a float entry in the Homecoming Parade, a Faculty-Student wine & cheese party, and co-ordination of the science displays during Open House. The major social function of the year will be the St. Valentine's Day Dance held in conjunction with Winter Weekend activities.

phi alpha delta

law fraternity

On March 14, 1969 a milestone was reached in the Phi Alpha Delta Law Fraternity with the installation of the Sir John A. Macdonald Chapter at the University of Windsor, Faculty of Law. This was the first P.A.D. Active Chapter Charter granted outside the continental limits of the United States.

On the 18th of February, a group of 18 law students and one professor, Judge Thomas G. Zuber of the University of Windsor Faculty of Law, formally petitioned the National Executive Office of P.A.D. requesting the establishment of an Active Chapter at the university.

The new Active Chapter of P.A.D. was named after the late Sir John Alexander Macdonald. Born in 1815, Sir John was articled by George Mackenzie of Kingston, Ontario. In 1835 he opened his own practice there and in 1836 was admitted to the Bar. Before running for a local government office eight years later, Sir John acquired a considerable professional reputation and established himself as a respected and popular citizen of Kingston. In 1867 Sir John was elected as Canada's first Prime Minister. He was opposed to oligarchial rule and religious privilege; though he was in favour of the cultural duality of Canada. He was fully prepared to consider new commercial policies rather than follow annexation programmes proposed by his opponents. Sir John's contribution to Canadian nation building was nothing less than the bringing together of all the divergent factors in Canada — the result being the union of the whole of British North America into a general confederation called Canada. He died in 1891.

The formal initiation ceremonies of the charter members of the Macdonald Chapter were held at the Essex County Courthouse in Windsor. The active brothers were: John E. Kingsmill, William B. Stead, Nicholas P.G. Kapelos, Paul H. Macklin, Avrom W. Brown, Roger L. Clark, Paul M. Champagne, David A. Crowe, Gregory T. Evans, Jr., Gordon T. Gardner, William E. Kelley, Walter N. Lalka, Robert D. McMullen, John F. O'Donnell, Donald F. Sayles, John Siimes, Robert B. Wilson and Judge Thomas G. Zuber.

Those representing the Fraternity at the initiation were: Supreme Justice Henry C. Rohr, Associate Tribune Kenneth C. Segal, District IX Justice Lawrence S. Turner and Special Assistant to the Supreme Justice Frank J. McCown. A delegation of brothers from neighbouring law schools in Michigan attended also.

Following the formal installation and initiation ceremonies, a reception was held at the Seaway Inn.

Macdonald Chapter officers installed during the reception were: John E. Kingsmill, Justice; Wm. Brian Stead, Vice-Justice; Hugh C. Mitchell, Clerk; Nicholas G.P. Kapelos, Treasurer and Paul H. Macklin, Marshal. Judge Thomas G. Zuber was the first Faculty Advisor.

The first Macdonald Chapter honorary members to be initiated during the following year will be: the Rt. Hon. John Diefenbaker, former Prime Minister of Canada; the Hon. Paul Martin, Senate Leader of the Government; and the Hon. John P. Robarts, Prime Minister of Ontario, initiated in Sept. 1969.

Paul Macklin, Marshal; Hugh Mitchell, Clerk; John Kingsmill, Justice; Brian Stead, Vice-Justice; Nick Kapelos, Treasurer.

OUR SPORTS PROGRAM FOR THIS SEASON

Chrysler has a great sports lineup for 1970:

For starters, Plymouth 1970 makes it with the fabulous Barracuda Series. Valiant Duster 340. And the imperturbable Plymouth GTX.

Or, you and your folks could be Dodge Material. Find out with a run in the cars with the

bumblebee stripe: The Challenger. Charger 500. Dart Swinger 340. Coronet Super Bee.

The loaded lineup. Performance on wheels, waiting for the call of the road.

Think about it. You'll feel like a million in one of these proud new beauties.

editor's message

What can I say — it's over now. Hours of work, weeks of frustration for this — Ambassador 70. Worth it? Sure, for the people, for the experience, for the pride.

There have been changes. We have attempted professional layouts and expressive colour. And the cover — neat eh?

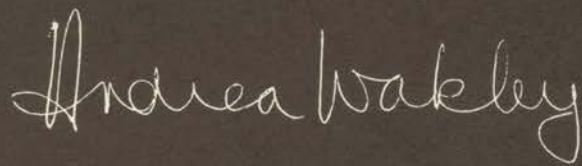

Mistakes are unavoidable. We were expected to decipher scribbled names and henscratched copy. Grad pics without names or faculty are hard to work with. We tried our best.

You have a multitude of people to thank. Dave Gellatly, Photo Editor par excellence; Grad Editor Linda Fowler, who capably managed the most tedious section of the yearbook; Mary Tromp for her cover design and lettering talents; our layout-ers Gina Coia and Dave Phillips and more.

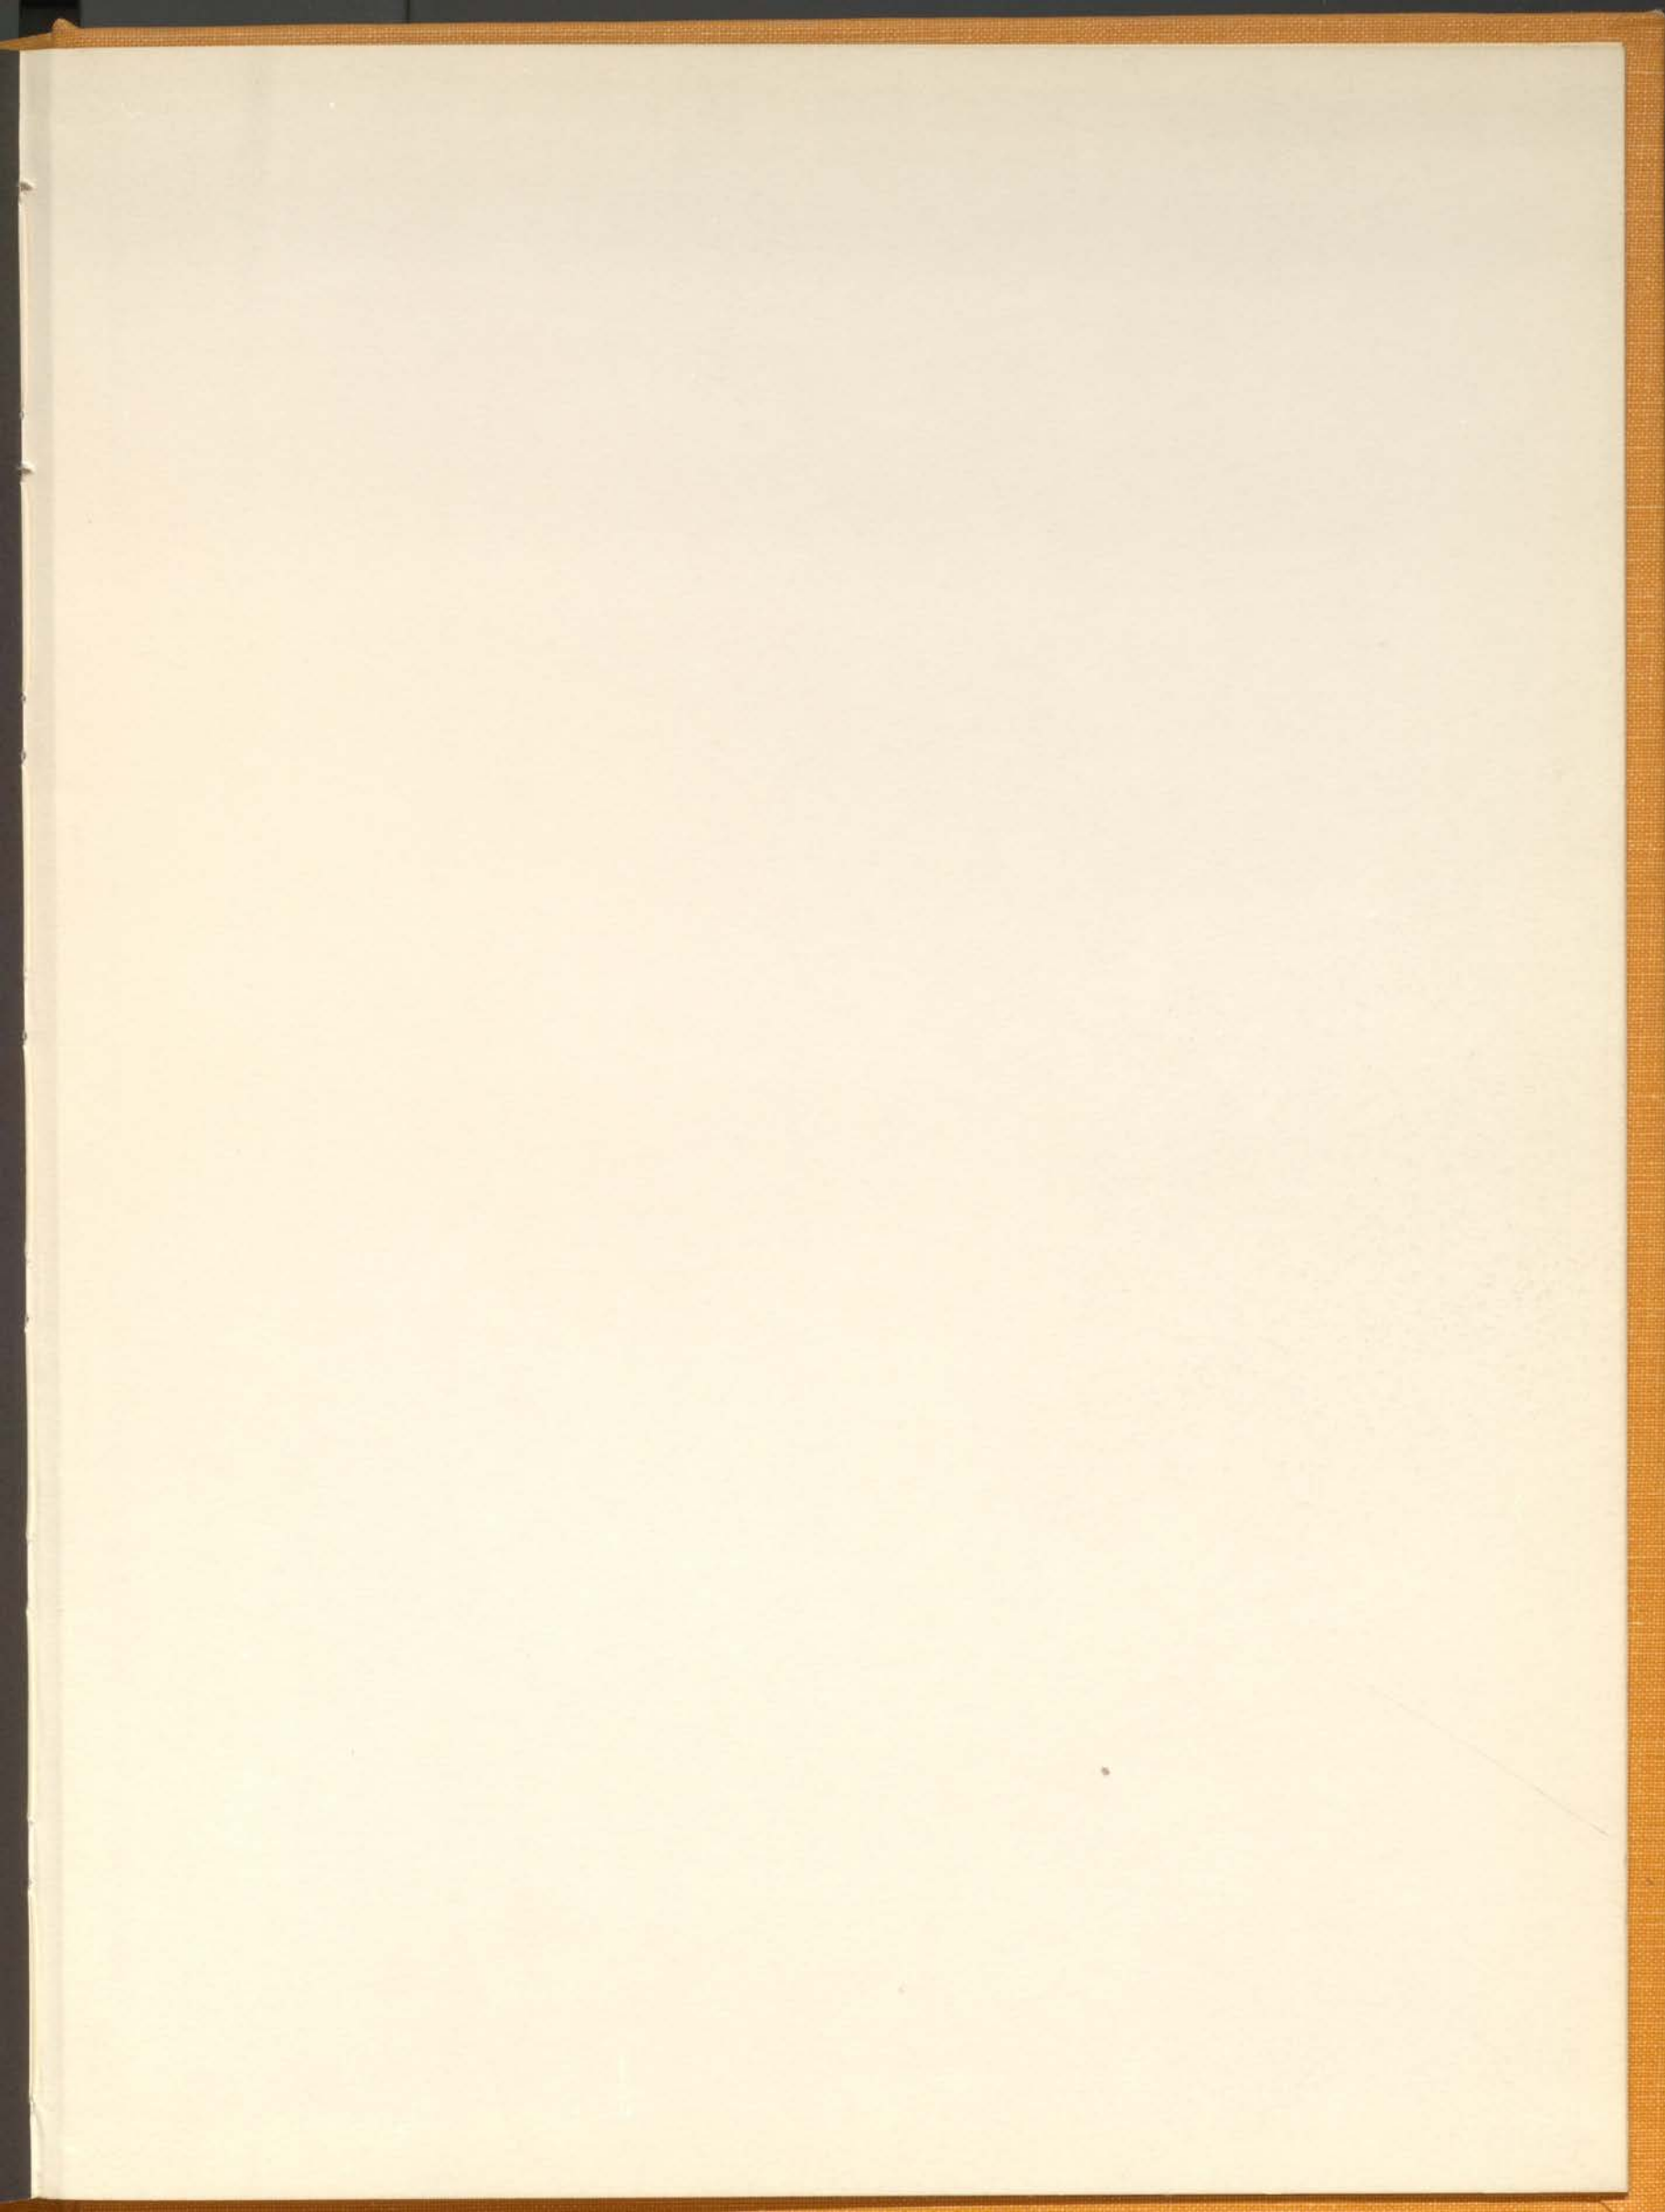

Fifteen thousand dollars went into Ambassador 70 (that's a low budget for a university book) but only one third of you cared enough to save part of '69-'70.

Life is short. Don't miss anything.

The Editor
